DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on December 12, 2008 has been entered.

Information Disclosure Statement (IDS) filed after Allowance

2. Information disclosure statement (IDS) filed on December 12, 2008 after allowance has been considered and entered in full.

3. Various prior art references cited in the IDS filed by the applicant have been reviewed; examiner still maintains the same reasons of allowance on the respective claims.

Claim Rejections - 35 USC § 101

4. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

5. Claims 1-10 are rejected under 35 U.S.C. 101 as not falling within one of the four statutory categories of invention. Supreme Court precedent (*Diamond v. Diehr*, 450 U.S. 175, 184 (1981); *Parker v. Flook*, 437 U.S. 584, 588 n.9 (1978); *Gottschalk v. Benson*, 409 U.S. 63, 70 (1972); *Cochrane v. Deener*, 94 U.S. 780, 787-88 (1876)) and recent Federal Circuit decisions (*In re Bilski*, 88 USPQ2d

1385 (Fed. Cir. 2008)) indicate that a statutory “process” under 35 U.S.C. 101 must (1) be tied to another statutory category (such as a particular apparatus), or (2) transform underlying subject matter (such as an article or material) to a different state or thing. While the instant claim(s) recite a series of steps or acts to be performed, the claim(s) neither transform underlying subject matter nor positively tie to another statutory category that accomplishes the claimed method steps, and therefore do not qualify as a statutory process. For example, the method for determining a position of an area of an object including steps of processing, comparing and determining is of sufficient breadth that it would be reasonably interpreted as a series of steps completely performed mentally, verbally or without a machine. The applicant has provided no explicit and deliberate definitions of “processing”, “comparing”, and “determining said position based on comparison” to limit the steps to **electronic form** of position determination. Examiner suggests amending the claims by inserting a statutory category in the body of the claims so that the method steps are positively tied to a statutory category. For example, adding the limitation “using the processor to perform the steps of:” before the processing step would positively tie the method steps to a statutory category.

Allowable Subject Matter

Reasons of Allowance:

6. Claims 11-12 are allowed.

The following is an examiner’s statement of reasons of allowance:

The reasons of allowance for claims 11-12 should be evident from the previous office action mailed on 04/28/2008 and 07/05/2007.

Claims 1-10 would be allowable for the same reasons, after all the 35 USC 101 rejections issues have been resolved on the respective claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
